WESTERN CURIOS.

Extensive Exhibition of Indian Articles.

The Ryan Collection Which Attracted Much Attention now in This City—Public Allowed to Visit the Interesting Museum Without Charge.

As was announced some time ago by The Journal, Patrick Ryan, of Chadron, Neb., brought his collection of Indian relics to this city from Buffalo, where he has had it stored since the Pan-American exposition closed. The collection with a few exceptions is the same as was shown by Mr. Ryan in the grounds of the Indian Congress last fall. The display is now opened to the public at the former business place of C. M. Titus, in the Titus Block on West State street, and Mr. Ryan gives a hearty invitation to the public to view the display. He is also perfectly willing that any interested person shall examine the collection, although his aim in arranging the display is to interest the authorities at Cornell and the students, that it may be determined whether the collection shall be located at the University.

The walls of the 130 foot building are literally covered with the vast number of Western relics and curios. Although Mr. Ryan is more familiar with the Sioux Indians, he has travelled among all the tribes of the West in making the collection on which he has spent his whole time since boyhood.

The majority of his collection of fossils and petrification are still in Buffalo as the present quarters are not sufficiently commodious to enable him to display them while in the city. However he has one very rare specimen of petrification in the shape of the remains of a little Indian girl.

Dr. Middleton is still living and is now one of the best citizens of Edgemouth, South Dakota; has a large collection of elk, deer, antelope, and mountain sheep heads; a mounted coyote which only a short time ago was free on the prairies; any number of articles of the finest bead work; a rattlesnake coat made of 54 skins of rattlesnakes and worn by "Rattlesnake Pete"; a large collection of bows, arrows, tom-toms, etc.; a buckskin scalp shirt, owned by "Red Cloud" the Indian chief who will be the next Chief of the Sioux nation, on the death of his father, "Geronimo." Old "Geronimo" is the chief who was said to have cost the United States a million dollars in his capture. Besides these, there are in the collection, a large number of cowboy relics, war saddles, and noted Indian equipments.

The whole collection is most interesting and instructive, and Mr. Ryan is willing that the public take advantage of the afforded opportunity and visit the display while he remains in the city. He kindly offers to allow such inspection without charge. The place will be open from 10 o'clock in the morning to 9 o'clock in the evening.—Ithica Journal, (N. Y.) April 4.

Patrick Ryan, of Chadron, Neb., the collector and owner of the largest collection of Indian goods and relics ever known, came to this city last Tuesday, by special request, to meet the University officials, with the object of having the vast collection, numbering over 3000 pieces, placed in Cornell to remain permanently. Mr. Ryan is a born collector, having spent his whole life in securing these interesting and educating curiosities, most of which were obtained direct from the hands of noted warriors, notorious Indian outlaws, aged chiefs, members of many wandering bands, and tribes of the western redmen. Among the relics are, Bad Lands fossils, Black Hills rubies, taxidermy specimens, Sioux Indian curios, wonderful petrifications, minerals, bead work, and every imaginable western curiosity. He also has a collection of very valuable ancient fire arms, arrow points, western birds, animals, etc.

Mr. Ryan says that money and time have not been spared in securing his relics, but since he has displayed them at the greatest of American expositions and other public occasions, he would now like to have them placed on exhibition at some permanent location, where, after disposing of them, he could still retain the honor of being named as their collector, and where their full historical and educational value might be appreciated.

He has a number of excellent photographs of his collections, while on exhibition at different places, and among them are cuts of his rooms at his home in Chadron, the walls of which are simply covered with the relics; also a number of pictures of the exhibition hall used for a display at the Indian congress on the Midway of the Pan-American grounds at Buffalo last fall. The hall was 90 by 40 feet, and though somewhat unattractive from the outside, the effect produced by the tastefully arranged relics on the inside, made a picture to be remembered for a long time by the spectator.

His collection is now in Buffalo awaiting the time of repacking, and should the University decide to take up the matter, the curios will probably never be again placed on public exhibition, except at this city. In any case, Mr. Ryan would expect to continue his efforts in the enlargement of his collection. One other interesting fact concerning Mr. Ryan, is that he gathered together and brought to the Buffalo exposition the Indian relics of the Indian Congress, from the Indian Territory, Nebraska, Pine Ridge, Rosebud, and the adjoining districts. Yesterday, he met President Schurman, and they together discussed the matter. The question will be given a thorough investigation before any further steps are taken.—Ithica Paper.

Mr. Ryan is a Holt county production, having been born and raised in this county, about five miles east of Oregon. Mr. Ryan's many friends in this section are glad to learn of his success, and hope that he will continue to prosper.

Monarch.

—Gracie Garfield Smith is visiting her grandma, and fishing a little, once in a while.

—Albert Harden and Mr. Boyd are planting corn in Nodaway bottom lands. Maybe they will get it inundated.

—Brother John Harrington preached as Monarch to an appreciative audience last Saturday night. Everybody was pleased with the kind words of Brother Harrington.

—Mr. Graham, wife and family, Mr. Boyd and wife, Mrs. Joseph Kurtz and family, Mrs. Marion Lumley and Nellie, visited last Sunday afternoon with James Fancher's family.

The whooping cough is in the vicinity. No attention paid to it at all. No bad cases talked of as yet. It is better for children to have it while young than to wait until grown up.

—Mr. Frazier, of Lexington, has been up recently, viewing his domain in Holt county, "The River View Farm." He was well pleased with the progress that Smith and Boyd had made.

—Monarch has not hired a teacher yet. Gracie Smith says for Miss Metcalf to come back. They all want her to teach their school. Miss Metcalf is a great favorite with many of the pupils.

—Mrs. Eliza Smith and daughter went Sunday afternoon to see Grandma Heckman. Mr. Goffrey Miller and wife were there. Grandma is very poorly; a granddaughter from Oregon, a Miss Sipes, has come down to stay with her a while.

This community was treated to a delightful rain recently, and the farmers are jubilant. Corn is coming up fine, and gardens are doing well. Wheat will be short in some fields, only fair for fruit. Strawberries bloomed fine, and apples also, but not a peach bloom. Potatoes, a small acreage planted, seed was scarce and high priced, not so many planted.

The rainfall for the first 14 days of this month is 2.17 in., normal is 2.27 in. Temperature is 3 degrees above normal. There is more corn growing in the county now than for many years in the past. Every available tract has been planted or is being prepared for it. All the low and hitherto wet lands of the bottom have been put in cultivation and reasonably good weather will produce one of the largest crops ever known here.

The great volcanic disaster in the West Indies is among the worst ever known. The first announcement of the destruction of life is reduced from 40,000 to 30,000 in the island of Martinique and is increased from a few hundred to 2,000 in St. Vincent. The eruption of Mt. Krakatoa in the East Indies on the 27 day of August, 1883, 30,000 lives were lost and seven square miles of territory were completely submerged. The dust was carried around the earth it is said three complete revolutions and the sounds issuing therefrom were heard 3,000 miles away, and dust was deposited a distance of 6,000 miles. For years afterwards a peculiar luminous cloudy appearance at sunset was noted all over the world. At St. Pierre there was no overflow and burial of the city as at Pompeii and Herculaneum but destruction by fire and in many instances this was complete.

And above all things have fervent charity among yourselves, for charity shall cover the multitude of sins. Use hospitality one to another without grudging.—1st Peter 4:8-9.

RURAL FREE DELIVERY.

Four More Routes Recommended in Holt County.

Holt County will soon have four more rural routes in operation, as follows: One from Craig, making the second; one from Bigelow, one from Forest City, and one from Oregon, making the second route. These routes were looked over and carefully examined by Special Agent and Examiner, Geo. A. Bennett, one of the oldest Special Agents, in point of appointment in the service, being third on the list of thirty-seven, who are now in this branch of the service. We found him a perfect gentleman, competent and very thorough in his work. The growth of the service has been very rapid and is still increasing, making it impossible for the department to keep up with the demand. We now have six routes in operation, and as soon as the present ones, which have been recommended, are instituted, we will have ten. Let the good work go on. The new routes will not be put in operation before September.

—Don't forget "Hazel Kirke" at the opera house, Forest City, next Saturday evening. Admission, 15, 25 and 35 cents.
